SPECIAL AND JOINT COMMITTEES

From the Special Committee on Public Welfare—

Your committee which you instructed to investigate the Acme Rug factory at 1315 Knox avenue north respectfully report and recommend we find a rug factory making new rugs and carpets out of old rugs and carpets. We believe that the people that live in the neighborhood will be taken care of with the new dust collector now being installed, but we think something should be done to protect the health of the employes and the people of Minneapolis who buy these rugs and carpets. The old rugs and carpets used in the manufacture of the new rugs and carpets are old worn-out rugs and carpets that the rag man buys from different houses in the city. They are then put in a tumbler and revolved around a few times and what dirt falls through the slats of the tumbler is the only cleaning that these rugs and carpets receive. They are then cut into strips about ¾ of an inch wide and twisted. Then with the help of new warp they are woven into new rugs and carpets with a hand loom. Every time the weaver moves the loom you can see a cloud of dust arising from the carpets. The foreman told us that these new rugs and carpets receive no other cleaning. We believe that this should be referred to the Board of Health as we think the lives of the employes who work in this factory as well as the people who buy these rugs and carpets are in danger.

To the Honorable City Council—

Whereas, the people of Minneapolis are now debating whether a Charter drawn by Mr. W. I. Norton and Professor Anderson should be accepted or rejected, and it is generally believed that the "City Manager" charter was drawn with the idea and hope that a certain man would be the "City Manager," and certain provisions were included in and made a part of the Charter that apparently would work well only with that individual or a person of his type, as City Manager;

And whereas, there are rumors and grave doubts as to whether the prospective City Manager is, under the Constitution and Laws of this State, eligible to accept the position of City Manager; now, therefore, be it

Resolved, by the Bancroft Improvement Association, that we request your Honorable Body to secure a legal opinion as to whether a member of the past State Legislature would be eligible to accept the position of City Manager under the new Charter, if the same is adopted by the people of Minneapolis.

REPORTS OF CITY OFFICERS

From His Honor, George E. Leach, Mayor—

I am returning herewith the ordinance entitled, "An ordinance to amend an ordinance entitled, 'An ordinance providing for the preservation of health and the suppression of disease in the City of Minneapolis, and for the inspection, regulation and licensing of establishments where the occupations of hairdressing and beauty culture are practiced, and of schools and places where instruction in the said occupations of hairdressing and beauty culture is given,' approved February 18, 1926," without my approval.

It has been suggested to me that there is a question whether, under this amended ordinance, a duly licensed barber may not be prevented from giving face massage or treatment to customers; in other words, that he may be limited under the terms of this ordinance strictly to haircutting, shaving and trimming of the beard. If this be the effect of the ordinance, I could not approve it.

I suggest, therefore, that the ordinance be referred to the City Attorney for an opinion as to its meaning and effect in the above particulars.

Very truly yours,

GEORGE E. LEACH,
Mayor.

The question being, "Shall the ordinance pass notwithstanding the objections of His Honor, the Mayor?" Alderman Bastis moved the action of the Mayor be sustained.

Adopted.

From the Standing Committee on Health and Hospitals—

Your committee respectfully report and recommend the passage of the accompanying amendment to the Hairdressing Beauty Culture Ordinance approved February 18, 1926.

Alderman F. H. Brown moved that the rules be suspended and said ordinance be given its second reading for amendment and passage.

(Following is the report referred to.)

Auditorium Committee,
City Council.

Pursuant to the request of your committee that we, together with Mr. Elsberg, City Engineer, examined the samples and proposals submitted by the various seating companies for the seats which they propose to furnish for the new Municipal Auditorium under their bids of May 20, 1926, and we herewith respectfully submit our report.

FIXED CHAIRS

We find that the samples submitted by the American Seating Company, together with their proposal, fulfill all the requirements of the specifications, and, as they are the lowest bidders for these chairs, we recommend that same be purchased at their quotation of $53,230.32.

PORTABLE CHAIRS

After analyzing the various uses to which the Auditorium will be put, we feel that the spring seat type of portable would not stand up satisfactorily under this very heavy duty. We therefore recommend that it would be preferable to provide sufficient portables of the insert panel seat type to seat the Arena floor back of the orchestra pit, which amounts to 4,036 chairs This would provide sufficient chairs of this type to permit of any seating arrangement that might be needed for athletic events, conventions, etc.

In order to have more comfortable seats for special occasions, such as concerts, grand opera, etc., we recommend that 900 of the spring seat type be provided. This would make the portable seating extremely flexible.

After examining the samples of portables submitted, together with proposals, we recommend for your consideration the following two combinations, which fulfill the specification requirements and appear to be well worth the prices asked:

1. The lowest combination:	
900 Boutell spring seat type portable	$6,138.00
4,036 Insert panel type of portable as made by the American Seating Company	28,897.76
Total	$35,035.76
2. The second lowest combination:	
900 Boutell spring seat type portable	$6,138.00
4,036 Insert panel seat type portable as manufactured by the Reedsboro Chair Company and under the proposal of J. Goodwin Carlson	29,745.32
Total	$35,883.32

A summary of the cost of the seats under these combinations is:

Fixed chairs	$53,230.32
Portable chairs, Combination No. 1	35,035.76
Total	$88,266.08
Fixed chairs	$53,230.32
Portable chairs, Combination No. 2	35,883.32
Total	$89,113.64

J. Goodwin Carlson quoted on a special insert panel portable chair which did not comply with the specification, and, which, in fairness to the other bidders, cannot be considered under this bidding. Although this type of chair would show an appreciable saving, your Architects would not recommend its purchase on account of the fact that the seat members and back panel members are made up of solid wood, which in time will shrink and, due to the large amount of handling, will cause the joints to open up and the seat to become very rattily and noisy.

Croft & Boerner, Architects and Engineers; N. W. Elsberg, City Engineer.

Alderman Bastis moved that the chair of J. Goodwin Carlson be substituted for the chair of the American Seating Company.

Lost—Yeas, 7; nays, 18, as follows: Yeas—Aldermen Hadley, Bastis, Hanscom, Gisslen, Pearson, Scott, Rudsdil —7. Nays—Aldermen Ryan, Chase, Hawley, Maurer, Sweeney, Currie, Fruen, Hosmer A. Brown, Frank H. Brown, Sheffield, Rendell, Giebenhain, Pryts, Benson, Ekberg, Robb, Kjorlaug, President Turner—18.

Alderman Hanscom called for a verbal statement from the City Engineer on the merits of the chairs in question.

The City Engineer stated that the J. Goodwin Carlson chair was a better chair, even at a higher price.

Alderman Hawley moved that we hear from Mr. Croft, of Croft & Boerner on the question.

Adopted.

Mr. Croft stated that both chairs fulfilled all the requirements and specifications, and both panels and the structural strength would give the same service, and inasmuch as there was a difference in cost between the two, report was made to the Council so they could decide if they wanted to pay the difference, that he was not satisfied that either one of the two would give better service. There may be a heavier padding on the Carlson chair, and it may be looser, but it is a question if it would give any better service.

Alderman Hawley asked Mr. Croft if after examining the two chairs in all particulars he felt that so far as quality and serviceability were concerned, either one of the chairs was superior to the other in any respect.

Mr. Croft replied that the details might not be the same on both chairs; that on the J. Goodwin Carlson chairs the stretchers were not let into the posts, as they were in the American Seating Company chairs.

Alderman Bastis moved that the chairs be brought into the Council Chamber for comparison.

Lost.

Alderman Bastis called for a division. A division, by a rising vote, was called for, and declared lost.

Alderman Bastis inquired if both complied with the specifications. Mr. Croft replied that the specifications provided that the stretchers should be

let into the posts; that on the question of the lip on the edge of the seat, the screws may become loose and the lips come off.

Alderman Bastis asked the City Engineer why he considered the Carlson chair preferable to the American Seating Company's chair. Mr. Elsberg replied that he liked the construction because it had the cowl or stiffener on the front edge of the seat; the chair seemed a trifle heavier in construction. It would be required when the chairs were furnished that the stretchers be inserted in the leg, whether or not the sample showed it.

Alderman Hanscom moved that the statements of the Engineer and Mr. Croft be made a part of the official proceedings of this meeting.

Adopted—Yeas, 25; nays, none, as follows: Yeas—Aldermen Hadley, Ryan, Chase, Hawley, Maurer, Sweeney, Currie, Fruen, Hosmer A. Brown, Frank H. Brown, Bastis, Hanscom, Sheffield, Rendell, Gisslen, Pearson, Scott, Giebenhain, Pryts, Benson, Rudsdil, Ekberg, Robb, Kjorlaug, President Turner—25.

Alderman Hawley asked whether the seating or the framework of the chair was the most important. Mr. Elsberg replied that he did not think there was a great deal of difference; that the question was how the veneer would stand up, that the veneer on the seats would get the most abuse; the panels would wear out but they could be replaced.

Alderman Ryan inquired if the chairs were guaranteed. Mr. Elsberg replied that they were, at the expense of the installer.

The question being on the adoption of the report of the committee, as submitted, it was—

REPORTS OF CITY OFFICERS
